

We're having a FOAM PARTY!!

Here's what to expect:

- ◆ Any kids that play enthusiastically in the foam (and most do) will get wet & soapy.
- ◆ Bring a towel to dry off and wrap up in, after the foam.
- ◆ Participants can wear swimsuits or any comfortable clothing that can get wet & soapy. Dry clothes for after can be a good idea.
- ◆ Remember sunscreen (water-proof is best).
- ◆ Wear eye goggles if desired, but they are not a “must have”.
- ◆ The foam is safe for kids, adults, pets and the environment. It is biodegradable, non-toxic, non-staining, unscented and hypoallergenic.
- ◆ Ann uses only the highest quality, professional-grade foam solution made in the USA by a leading foam party supplier.
- ◆ **MOST IMPORTANT!! Charge your phones and cameras because this is a chance to get some awesome photos of your kids having the time of their lives!**
